

CLIMATE CHANGE RISK AWARENESS SEMINAR SERIES

Transport and Alternative Energy for a Low Carbon Future

The EMRC invites you to attend our next climate change seminar entitled *Transport and Alternative Energy for a Low Carbon Future*.

The free seminar will include presentations from leading researchers and industry experts highlighting some of the key emerging technologies in relation to transport and alternative energy.

The seminar is open to all local government officers who have a responsibility to manage and mitigate carbon emissions.

PRESENTER 1: Peter Newman
Curtin University, Auto-dependent Cities.

PRESENTER 2: Amanda Joseph
RAC, Autonomous vehicles (Intellibus).

PRESENTER 3: Crawford Connell
City of Belmont, eBike trial case study.

PRESENTER 4: Dermot Costello
Clean Energy Council, Battery storage and alternative energy initiatives.

DATE:	Friday, 28 October 2016
TIME:	9.30am to 11.30am
LOCATION:	EMRC 226 Great Eastern Highway, Belmont 6104
RSVP:	Please RSVP by Friday 21 October 2016 by email on environment@ermc.org.au or phone 9424 2216
